MEDICINAL.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BIT-TERS, which is a true tonic-a medicine universally recommended for all wasting diseases.

> yor N. Fremont St., Baltimore During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

TRI-WEEKLY. One year . . Six months . . One month . .

All communications should be addressed to "Gazette, Alexandria, Va." The Gazette office is connected with the Telephone Exchange. Advertisements, orders for the paper, news or any information or business can be sent by tele-

phone.

Persons leaving the city for the summer can have the Gazette mailed to them, post paid, for fifty cents per month, and the address changed as often as desired. Resolutions in memoriam, of thanks, tributes of respect, resolutions adopted by societies or persons, unless of public concern, will only be printed in this paper as advertisements. public concern, will only be printed in this paper advertisements.

Marriage and death notices must be paid for in advance.

Price fifty cents, when not exceeding six lines.

Contract advertisers will not be allowed to exceed their
space, unless the excess is paid for at transient rates,
and under no circumstances will they be allowed to
advertise other than their legitimate business in the

space contracted for.
All transient advertisements must be paid for in advance. (Entered at the Postoflice at Alexandria, Virginia, as second-class matter.)

> Woodlawn Agricultural Society. [Reported for the Alexandria GAZETTE.]

The annual meeting of this association was held August 26th, at the farm house of C. F. Wilkins, President Roberts, in the chair, and N. W. Pierson, Secretary.

The first business in order was the elec-

tion of officers for the ensuing year. On motion of V. Baker, the officers of the preceding year were re-elected - B. F. Roberts, President; N. W. Pierson, Secre-

tary, and D. P. Smith, Treasurer. Several copies of the Premium List of the Piedmont Agricultural Society were placed upon the table.

Attention was called to the invitation extended to agricultural societies to send one delegate each to the fair to be held at Cu'peper on the 18th, 19th and 20th of

On motion, N. W. Pierson was appointed a delegate from this society.

C. Lukens read an article from a Western paper on feeding cattle, which was interest-

ing to dairymen. Mr. Lukens called upon Norman Gibbs to state more fully the effect of his rye ensilage upon the milk product of his cows.

Mr. Gibbs said that about the first of July

his 25 cows were falling off in their milk from one-half gallon to a gallon daily in consequence of the increased heat and the drying up of pasture. Hav-ing no cornfodder to give them with their daily feed of 200 pounds of wheat bran and cotton seed meal, he commenced feeding the rye-ensilage which arrested the decrease in milk and caused a small increase. Some weeks after the abundant rains had started the pastures again, he discontinued the feeding of the ensilage until another dry spell obliged him to resume the prepared feed. The ground feed was continued during these changes, so that the effect of the ensilage was apparent in restoring and keeping up the flow of milk during the heat and drought of midsummer.

The culture of wheat was thought to be a timely subject for discussion as the time was near at hand for seeding. V. Baker said he had plowed his ground

twice, and intended plowing two times more before seeding. This he thought of great advantage in clay soil, thoroughly pulverising and mixing it; then put manure or fertilizer on top of the ground when seeding. C. Lukens plows twice and then lets the

ground settle some before seeding. After turning under oats stubble spreads his yard manure and works it in with double shovel FLOUR, FISH, SALT, and FERTILIZERS,
Also Agents for
WATT'S RICHMOND CAST and CHILLED

The animonia. Price \$10.
For use, Januey's Formula No. 10 should be nixed with sufficient dry muck or stable manure to make one ton in weight. Apply by means of a drill from 200 to 300 lbs to the acre. The above price is net cash for the Formula, delivered free on board the cars or steamboat in Alexandria, Va. tember to the middle of October. Expects from this, to reap between 30 and 40 bushels per acre.

Several crops of wheat were reported averaging from 25 to 40 bushels to the acre. Some thought that Fairax was alread of Loudoun county in number of bushels produced to the acre of wheat, but behind in corn product.

An instance was related where a 20 acre field about two miles from Alexandria, which had been in a common and pastured for 12 or 13 years past, was plowed and planted in corn in 1881, producing not more than one or two bushels to the acre. This corn stubble was seeded to wheat and 400 lbs., blood and bone applied to the acre, producing an average of 27 bushels of wheat to the acre, also securing a good stand of timothy and clover. The places where the shocks of corn stood were not seeded.

The discussion on this topic of wheat culture, was announced by the President, to be continued at the next meeting of the club. Among the various suggestions made, how to increase the interest of our meetings the coming year, was one to have from time to time a general review of the reports and discussions the past 12 or 15 years, to see what if any advances had been made in the views

or modes of farming.

Regrets were expressed by many that several members had left the meetings from real or fan-cied cause; it was therefore unanimously resolved. That a committee of three be appointed to express the regrets of the club at their absence and re-quest their attendance in the future. Said committee were: C. Lukens, E. E. Mason and D. P.

S. H Snowden exhibited a seedling peach of medium size, juicy, tender and excellent flavor; a clingtone. Also two varieties of apples, one of which was nameless.

The critics reported: "Our entertainer as farming by proxy having other and more profitable business elsewhere, therefore we may justly excuse some things which we should not feel disposed to do were we inspecting the premises of a permanent resident." (This was objected to by the owner and others as unwarrantable.) We have cause to condemn one or more bridges on his road which might occasion injury to teams passing over. His farm, we judge, is better adapted to grass than to cereals, the land being of a stubborn nature. We think his present management is as judicious a course as could be pursued, and is deserving of much credit for his management and perseverance. The next meeting of the club will be held at C.

Lukens' September 23d. Critical Committee are E. E. Mason C. F. Wilk-

Disease is an effect, not a cause. Its origin is within; its manifestations without. Hence, to cure the disease the cause must be removed, and in no other way can a cure ever be effected. WARNER'S SAFE KIDNEY AND LIVER CURE is established on just this principle. It realizes that

95 PER CENT.

of all diseases arise from deranged kidneys and liver, and it strikes at once at the root of the dif-ficulty. The elements of which it is composed act directly upon these great organs, both as a food and restorer, and, by placing them in a healthy condition, drive disease and pain from the system. For the innumerable troubles caused by unhealty Kidneys, Liver and Urinary Organs; for the distressing Disorders of Women; for Malaria, and for physical despandances, governillabile. and for physical derangements generally, this great remedy has no equal. Beware of imposters, imitations and concoctions said to be just as good.

For Diabetes, ask for WARNER'S SAFE DIABETES CURL. For sale by all dealers.
